Commented [11]:

zz

pathology lectures ,I am also in charge of general pathology and pathophysiology lectures required by Pharmacy students in College of pharmacy .

Now we are proposing a research work in collaboration with KHCC (king hussain cancer center) by doing this

study in this center with Professor Mahir Alsughair after submitting the proposal to prepare for this original research work known as (Prevalence of PD-L1 expression in various malignant tumours and cancer cases in Jordan)this would help cancer patients in advanced stages to find a suitable immunotherapy according to the result we would get)....
