

13th European Doctoral Conference in Nursing Science EDCNS 2012

Programme

Thursday, September 13th 2012

18:00-20:00 Evening reception and registration in the Department of Nursing Science

Friday, September 14th 2012

8:00-9:00 Welcome reception and Registration

9:00-9:30 Welcome and opening

Organisational team

Rektor Univ.-Prof. Dr. Josef Smolle

Univ.-Prof. Dr. Christa Lohrmann

9:30-10:15 Keynote Prof. Dr. Kader Parahoo, University of Ulster

10:15-10:45 Coffee break

10:45-12:45 **Parallel oral presentation sessions / Workshop**

Session 1 Symptom management

Chair: Prof. Dassen

Caregivers' experiences and dealing with aggressive behaviour of residents in nursing homes

Adelheid Zeller, University of Applied Sciences St. Gallen, Switzerland

Civilized Oppression in Chronic Pain Patients: Results from the Participatory Action Research Study, Using a Learning Community to Manage Pain

Gareth Parsons, University of Glamorgan, UK

Physical restraint in nursing home residents: A systematic literature review

Hedi Hofmann, University of Applied Sciences St. Gallen, Switzerland

Session 2 Pedagogics

Chair: Prof. Lohrmann

Drug Administration Simulation Workshop: Moving Toward Safer Practice

Grugnetti Anna Maria, University of Genoa, Italy

Construction and Sustainability of Professional Identity in Adult Nursing

Jacqueline Ridge, The University of Northampton, UK

Skills development in family health nursing: The contribution of pedagogical strategies

Palmira Conceição Oliveira, Nursing College of Porto, Portugal

Concept maps to improve and track the process adopted to identify a research project: the experience of the PhD School of Nursing at the University of Genoa

Lentini Katia, University of Genoa, Italy

Workshop Prof. Dr. Vällimäki Evidence-based health care and challenges in developing practice

12:45-13:30

Lunch

(SZ KW 21)

13:30-15:00 **Parallel oral presentation sessions / Workshop**

Session 3 Psychosocial topics I

Chair: Breimaier, MScN, BScN

Experience of Support for Parents of Adolescents With Heart Defects—Supported to be Supportive
Elisabeth Bruce, University of Umeå, Sweden

Influences of spirituality on quality of life and general well-being in patients with end-stage renal disease (ESRD)

Ali Alshraifeen, University of Stirling, UK

“Manipulative behavior in prison” A critical examination of manipulative behavior in custodial setting
Pras Ramluggun, University Campus Suffolk, UK

Session 4 Risk management I

Chair: Prof. Heidi Zeller

The development of bedriddenness in long-term care facilities: Influence of the institution and the professional caregivers on local confinement and bedriddenness

Sabine Schrank, Vienna University, Austria

Adherence with venous blood specimen collection guidelines among senior nursing students – a cross-sectional study

Karin Nilsson, Umeå University, Sweden

Joint Action: A web based Patient Safety Database for Europe

Katharina Lex, Klagenfurt University, Austria

Workshop Dr. Siebenhofer-Kroitzsch Bias spotting

15:00-15:30

Coffee break

(SZ KW 21)

15:30-17:30

Parallel oral presentation sessions

Session 5 Research methodology I

Chair: Prof. Parahoo

Cultural competence in nursing (CCN) – Using the Delphi-method to describe the theoretical construct and originate a model as the base for the development of an instrument to measure cultural competence among nurses in German-speaking parts of Europe

Sabine Köck, Vienna University, Austria

Issues in generalising from qualitative case study research

Helen Bell, Edith Cavell Building University of East Anglia Norwich, UK

Child and Family-Centered-Care (CFCC): the child and the family at the heart of the care process

Calza Simona, University of Genoa, Italy

Translation and Content Validity of the LPZ Instrument on Measuring Quality of Pressure Ulcer Care in Indonesian Hospitals

Yufitriana Amir, Maastricht University, The Netherlands

Session 6 Patient education

Chair: Prof. de Jong

Primary care for patients with multimorbidity: development of a guideline for a nursing intervention.

Part 1: Exploration of needs, barriers and facilitators

Janneke Ronse, Ghent University, Belgium

Measuring the impact of an electronic patient education video instrument for spinal cord injured (SCI) people

Catarina Isabel dos Reis Silva Garcia, Universidade Católica Portuguesa, Portugal

Therapeutic Patient Education, a suggestion for outcome measures and report

Zanini Milko, University of Genoa, Italy

Analysing focus group data derived from a study exploring views about support needs for diabetes self management

Norma Buttigieg, University of Hull, UK

Session 7: Psychosocial topics II

Chair: Prof. Halfens

Lived experiences and underlying processes of patients with refractory epilepsy and their family when referred to a Refractory Epilepsy center: a grounded theory study

Tina Vandecasteele, Ghent University, Belgium

Understanding Emergency Nurses experiences of Moral Distress

Gerard White, NUI Galway, Ireland

Searching for the hidden: a phenomenological study exploring the spiritual aspects of impending day case surgery from patient and staff perspectives

Joanne Pike, Glyndŵr University, UK

Using Constructivist Grounded Theory as Gestalt to Improve Understanding of the Experiences of People living in Relationships where one partner is HIV Positive and the other is HIV negative (HIV Serodiscordant Relationships (HIV SDRs)

Mohamed Kemoh Rogers, City University London, UK

18:00 Meeting point for guided tour

18:30-19:30 Social programme

1. Guided tour (approximately one hour) to discover the World Heritage and Cultural Capital of Graz with its many faces.
2. Guided tour (approximately one hour) to learn about the “female side” of Graz.
3. Spend your time just as you like

19:30 Formal Dinner at Hotel Weitzer

Saturday, 15th September

8:30-9:00 **Welcome and registration**

9:00-11:00 **Parallel oral presentation sessions / Workshop**

Session 8 Leadership

Chair: Dr. Nyatanga

Leadership style and organizational commitment among nursing staff in Riyadh, Saudi Arabia
Mansour Alyami, University of Sheffield, UK

The impact of undergraduate clinical experience on post-hiring adjustment and turnover intentions in new graduate nurses
Marco Tomietto, University of Verona, Italy

Tasks and responsibilities of nurses: a process analysis of caring in two long term care facilities in Germany – a case study
Kerstin C. Freund, University of Witten/Herdecke, Germany

Interdisciplinary framework for the study of cumulative workloads and perceived health in employees of the “sandwich generation”
Annie Oulevey Bachmann, University of Applied Sciences Western Switzerland, Switzerland

Session 9 Research methodology II

Chair: Prof. de Vocht

Exploring 'Bricolage' as a methodological approach to investigating complex nursing problems
Birgit Heckemann, Maastricht University, The Netherlands

Psychometric properties of tools to assess sarcopenia in community-dwelling older people: a systematic review
Donja M. Mijnders, Maastricht University, The Netherlands

Undertaking research using the Vancouver School of doing Phenomenology
Dympna Tuohy, National University of Ireland Galway, Ireland

The Evaluation of Critical Thought in Nursing Education: Validation process of the Holistic Critical Thinking Scoring Rubric (H.C.T.S.R.)

Cremonini Valeria, University of Genoa, Italy

Workshop Prof. Dr. de Jong No life without blended learning!

11:00-11:30 *Coffee break*

11:30-13:00 Workshops

Prof. Dr. Parahoo Writing for publication

Prof. Dr. de Jong No life without blended learning!

Prof. Dr. de Vocht Analyzing and presenting qualitative data

13:00-13:30 *Lunch* (SZ KW 21)

13:30-14:00 Poster presentation

Meet the profs

14:00-16:00 Parallel oral presentation sessions

Session 10 Reviews

Chair: Prof. Dassen

An exploration of parental uncertainty in relation to child growth and development concerns: An integrative literature review

Helen Mulcahy, University College Cork, Ireland

Does Quality of Life (QoL) assessment in Palliative Care (PC) improve patients' outcomes in clinical practice? A systematic review of the evidence

Catania Gianluca, University of Genoa, Italy

Obesity in the older adult: an integrative literature review

Teresa Wills, University College Cork, Ireland

Session 11 Research methodology III

Chair: Prof. Halfens

Development and validation of the Patients' Perception of Self-monitoring of blood glucose Scale (PPS-scale) in insulin-treated patients with diabetes

Hortensius Johanna, Diabetes Centre, Isala Clinics, The Netherlands

Preparation of the English version of a questionnaire exploring the key aspects of falls in hospitalized children

Da Rin Della Mora Roberta, University of Genoa, Italy

Oral history as a source of research in nursing

Emília M. Mendonça, Nursing College of Porto, Portugal

Why use a Straussian-Grounded Theory Methodology over other approaches in exploring the factors that hinder or facilitate good end-of-life care in long-term residential care homes in Ireland?

Mary Butler, National University of Ireland Galway, Ireland

Session 12 Risk management II

Chair: Hürlimann, MSN

Self-Neglect: An Integrative Review

Day Mary Rose, School of Nursing & Midwifery University College Cork, Ireland

A large-scale educational program to improve venous blood specimen collection practices

Karin Bölenius, Umeå University, Sweden

Life with HIV/AIDS in times of the highly active antiretroviral therapy

Paulina Wosko, Vienna University, Austria

Gains in autonomy of dependent individuals admitted to a unit of Long Term Care

Marisa Lourenço, Nursing College of Porto, Portugal

16:00-16:30

Closing ceremony and farewell

Participants' awards for 'Best Presentation' and 'Best Scientific Poster'
