7	<p>Entrepreneurship Education in Jordanian Universities</p> <p><small>Hide abstract</small></p> <p>The aim of this study is to develop an overview of the state of entrepreneurship investigating the nature of entrepreneurship offerings, including entrepreneurship courses, programs and centres in Jordanian universities, both public and private universities. The study uses secondary sources of data and using an environmental scan to collect the data. This scan conducted a search on the universities' websites and documents such as university study handbook. The study indicated that the entrepreneurship education in Jordanian universities is still in its early stage of development. Entrepreneurship centers were available in 8 universities. Jordanian universities were characterised by a dearth of entrepreneurship programs. Across 29 universities, only one university offer a program in business entrepreneurship and it at the graduate level. Moreover, most Jordanian universities offer courses in small business management but few offer specialised courses in entrepreneurship subjects.</p>	<p>Submission files:</p> <p>Entrepreneurship education in Jordanian Universities_Alakaleek & Addah.pdf</p>	Entrepreneurship Business Management
